1. The SCHERERIN-GOIRRIES (N 54/T 46) airfield was not occupied by aircraft. Only 2 of the ⁴quartering buildings in the caserne area were lighted at night. The sentries wore black epaulets with engineer insignia.
2. A radio station was on a hill about 800 feet west of the fenced-in caserne area. The station had four braced trellis masts arranged in a square with a wooden cabin, occupied by Soviet soldiers, in the center. Three target ranges were west of the radio station. Soldiers quartered in the casernes practiced in the area.
3. The railroad spur track in the southern section of the field was being used by the Bauunion Firm. The track leading to the caserne area was partially dismantled and partially covered by weeds.

25X1 ☐ Comment :

The occupation of the airfield has apparently not changed during recent months. It is not assumed that an air force unit is stationed in SCHERIN-GOERRIES. There are no indications of an intended occupation by an air unit.
